ZLK7600V | ZOOMLION Loader Crane

ZOOMLION

Highlights

1.The crane has a Excellent performance which makes the first rate in lifting capability and outreach compared to the same type crane.
2.Classical hexagon profile for the 2nd boom makes the operation more reliable.
3.Optimized linkage system, make 2nd boom 10 degree reverse, you can reach through low door openings and also work inside buildings, provide higher availability in operation.
4.Post-compensated proportional control bank, provide accurate control, make any composite movement achievable, let the crane works more efficient.
5.With double high torque reducer continuous slewing system, meet load lifting requirement which needs larger slewing torque.
6.High response Load Moment Limiter can make the crane operation safer.
7.Equipped with a 5'LED touchscreen which can display realime working parameters, the radio remote control enables easy and safe operaton.

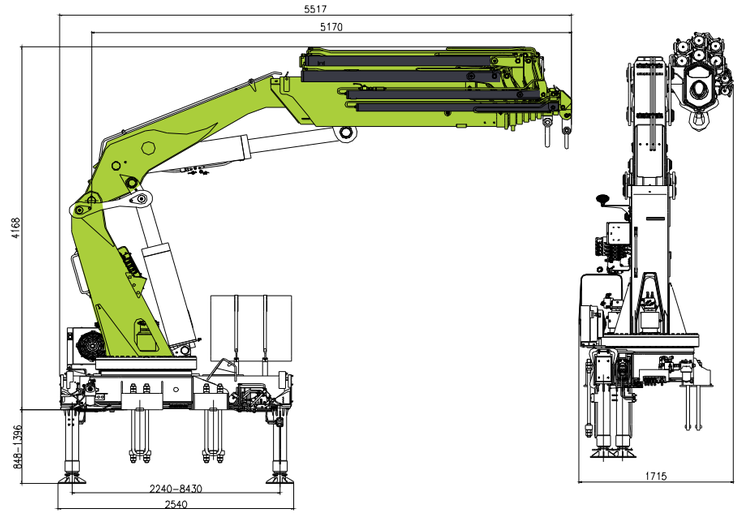

Capacity Curves

Technical Specifications

Max. lifting moment	650 kN.m
Max. lifting capacity	32000kg
Max. Operating range	20.45m
Slewing angle	continuously variable
Stabiliser spread	8.43m
Max. operating pressure	35MPa
Recommended pump capacity	120L/min
Dead weight	8200kg

Overall Dimensions

Scania Chassis

Model	P 500 8x4
Drivetrain	8x4
Kerb weight	23300kg
